

CORNWALL CROQUET CLUB

On-line booking system

The club will be making use of an on-line booking system in which members will be able to see what lawns are available and book playing sessions on them. The system has been in use in some other clubs for around 10 years.

There will also be the facility for the administrators to book lawns for club competitions, league matches (when they resume) and other events. It is hoped that this will, over time, replace the paper booking sheets in the clubhouse so that you will be able to book lawns for games from home or, if you do not have access to the internet, through a friend or one of the administrators.

The system can be used on a desktop PC, laptop, tablet and even a mobile phone with data access. We hope that all members with access to the internet will use the system. To join in you will be given a temporary password which you should change on the first occasion you use the system. Other members will not see this password so cannot log in and change any of your details or bookings.

The site will include a list of members using the system with contact details and handicaps and because of data protection regulations we will need your permission to add these to the database on the system. This will enable you to contact each other to arrange games.

All emails stored on our system will be encrypted, so cannot be 'stolen'

To get started, please agree to join and to the inclusion of your contact details:
